PROFESSIONAL SUMMARY

Experienced software developer prepared for this role. Skilled in programming languages, software design, and debugging. Strong focus on team collaboration and achieving results. Reliable, adaptable, and solution-focused.

WORK HISTORY

Junior Developer, 12/2024 - Current

Reality AI – San Francisco, CA

I am working on an open source project which will bring AI to schools, taking some of the work load off teachers and help shape the future of education. I am working with other engineers making contributions where I can.

Software Engineer, 02/2023 - Current

Freelancer – Weaverville, NC

Currently using React to build an app for a local kava bar. The app can track hours and allows you to message managers and co-workers. New features will be added upon request from management.

Laboratory Technician, 10/2017 - 09/2021

FedUp Foods – Marshall, North Carolina, United States

- Conducted daily testing of sugar and alcohol levels in kombucha tanks at FedUp Foods
- Collaborated with brewers to ensure product quality and consistency
- Inspected and tested for contaminants in the facility to maintain a clean and safe environment

Assistant Engineer, 09/2015 - 09/2016

Orb recording studio – Austin, TX

- Assisted lead engineer with setting up microphones and equipment, according to input sheets.
- Routinely troubleshooting equipment malfunctions and proactively addressing technical issues.
- Streamlined communication between artists and engineers, ensuring a smooth workflow in the studio.

Audio Engineer Intern, 07/2012 - 09/2014

Austin Signal – Austin, TX

- Worked with engineer setting up and breaking down sessions.
- Made sure clients were comfortable.
- Maintained equipment and kept inventory.

EDUCATION

Computer Software Engineering, 09/2024

Codecademy

06/2024

App Academy

Bachelor of Science: Recording Arts, 05/2014

Full Sail University - Winter Park, FL
